

DAVINCI®

ELECTRIC QUARTZ

# WELCOME TO THE DAVINCI FAMILY!

## ELECTRIC QUARTZ

Quartz delivers the purest expression of concentrate, refined by precise temperature control. The EQ Touchscreen puts complete mastery at your fingertips - precision that responds instantly to you. Paired with our signature bubbler, vapor is cooled and smoothed without compromise, elevating every draw.

Designed for the true connoisseur.

**#RaiseYourEQ to New Frequencies**

## WHAT'S IN THE BOX

- DaVinci EQ Engine
- Jacuzzi Bubbler
- Quartz Crucible
- Heater
- Zirconia Carb Cap Injector
- Zirconia Mouthpiece
- Tool
- 2x 15mm Bottles
- Travel Case with Dividers
- 6ft Type-C Charging Cable

## KNOW YOUR EQ

## POWER ON/OFF

Power the EQ on/off by clicking the Command Button 5x.

\* Turning on the device does not activate the heater.

The EQ automatically shuts down after 5 minutes of inactivity or when the battery becomes critically low.

Click  
5x

## GETTING STARTED

Open the Carb Cap to reveal the quartz crucible and heater.

**Cold Start:** Load concentrates before the heater is turned on for a "cold start" and experience more flavorful and smoother vapor as varying terpenes are individually expressed as the concentrate vaporizes.

## HEATER ON/OFF

To turn on/off the heater, press and hold the Command Button for 2 seconds. The device will vibrate.

\*Default temperature is 550°F / 288°C or last set precision temperature.

Press  
+  
Hold

Once the heater reaches temperature, the LED lights will turn green. The device vibrates twice when there is 10 seconds remaining in the session.

**Hot Start:** Load concentrates once the quartz crucible is hot for a “hot start” and experience higher strength vapor.

## SESSIONS

After the heater reaches the temperature you selected, it will start a 1-minute session by default. To customize this duration, go to Settings and select the (🕒) icon. choose a base session run time of up to 90 seconds.

## EXTEND SESSION

During the session, press the Command Button 1 time to add 20 seconds. You can do this up to 3 times (60 seconds total), for a maximum session length of 2 minutes and 30 seconds.

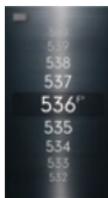

**NAVIGATION** Swipe the touchscreen to browse between different modes and settings. Tap once to confirm your selection.

## CUSTOMIZE YOUR DISPLAY

Adjust lights, brightness, and backgrounds to make EQ your own.

Tap the brightness/light icon

\*Swipe right to go back

Adjust lights, tap below buttons to switch light shows

Tap the theme icon

\*Swipe right to go back

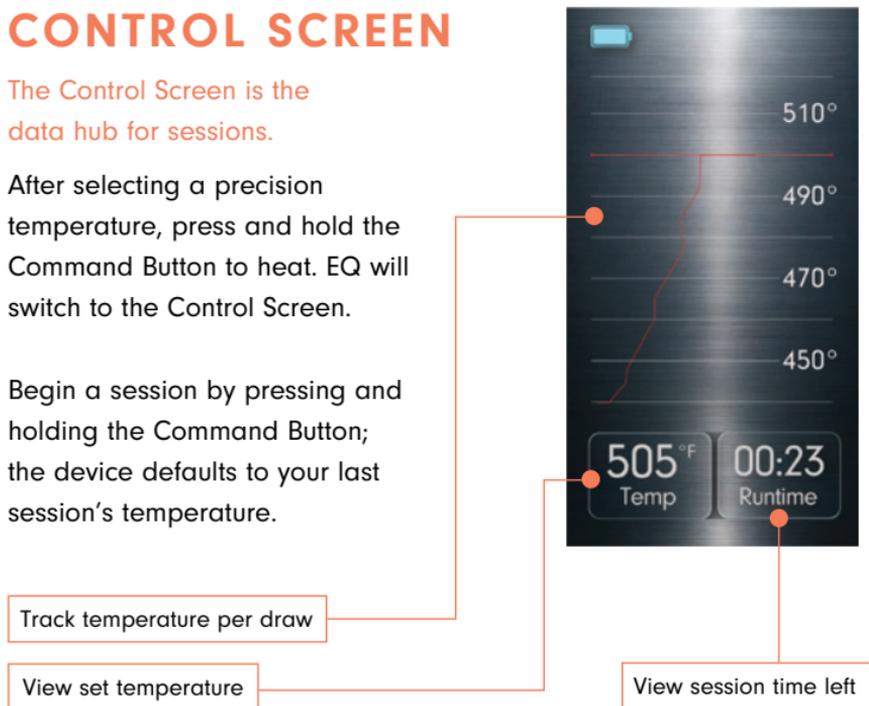

Tap through 6 themes.

## CONTROL SCREEN

The Control Screen is the data hub for sessions.

After selecting a precision temperature, press and hold the Command Button to heat. EQ will switch to the Control Screen.

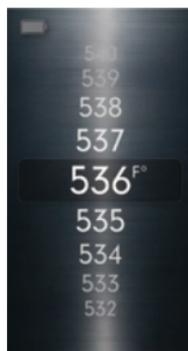

Begin a session by pressing and holding the Command Button; the device defaults to your last session's temperature.

## PRECISION TEMPERATURE MODE

In Precision Temperature Mode, the temperature remains constant over time, ensuring flavors are experienced at their optimal temperature.

Range: 450–650 °F (232–343 °C)

## SMART PATH™ MODE

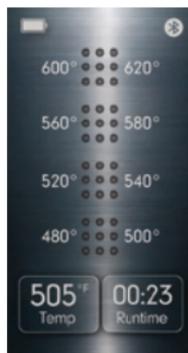

SP 4 600-620 °F (317-327 °C) \_\_\_\_\_

SP 3 560-580 °F (293-304 °C) \_\_\_\_\_

SP 2 520-540 °F (271-282 °C) \_\_\_\_\_

SP 1 480-500 °F (249-260 °C) \_\_\_\_\_

In Smart Path™ Mode, temperature gradually rises to sustain vapor production.

About Device

## REPROGRAMMABLE SMART PATH™

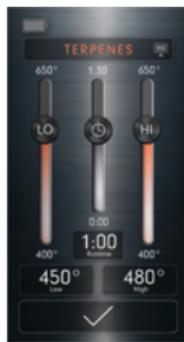

Reprogrammable Smart Path™ lets you customize and save your own temperature curves for a perfectly tailored session every time.

Tap the Smart Path™ icon from the Settings Menu

Tap any of the Smart Path™ range to customize

Swipe up/down to set your temp range. Tap the top-right keyboard icon to rename your Smart Path™. Tap confirm.

Tap and hold the command button to start your session. Your Smart Path™ will auto-apply.

## JACUZZI BUBBLER

To avoid water damage to the base, separate the bubbler from the base prior to filling or cleaning. (1) Separate the bubbler from the base by twisting the bubbler and lifting upwards. (2) Detach the mouthpiece from the bubbler by twisting the mouthpiece and lifting upwards. (3) Add water to the bubbler and fill no more than halfway up. (4) Reattach the mouthpiece. (5) Inhale through mouthpiece, adjust water if needed. (6) Reassemble with the base and you are ready to go.

*\*For best performance, use clean/distilled water and replace regularly.*

## CARB CAP

The Carb Cap is optimized for vapor production by injecting fresh air into the bowl during a session, pushing extracts towards the hottest part of the bowl.

**To use:** close the carb cap, press down on the air inlet with a soft and gentle touch, and massage in a steady circular motion for best results while inhaling.

**Clearing the bubbler:** open the carb cap while inhaling to flush out any remaining vapor in the bubbler.

## REPLACEABLE QUARTZ CRUCIBLE

EQ comes with a quartz crucible on the heater, removable for cleaning or replacement.

**To Disconnect:** Unscrew the retention ring. Do not lose the rubber O-ring. Gently pull the quartz crucible off the heater.

**Reconnect:** Carefully seat the quartz crucible onto the heater. Install the O-ring. Screw the retention ring back on.

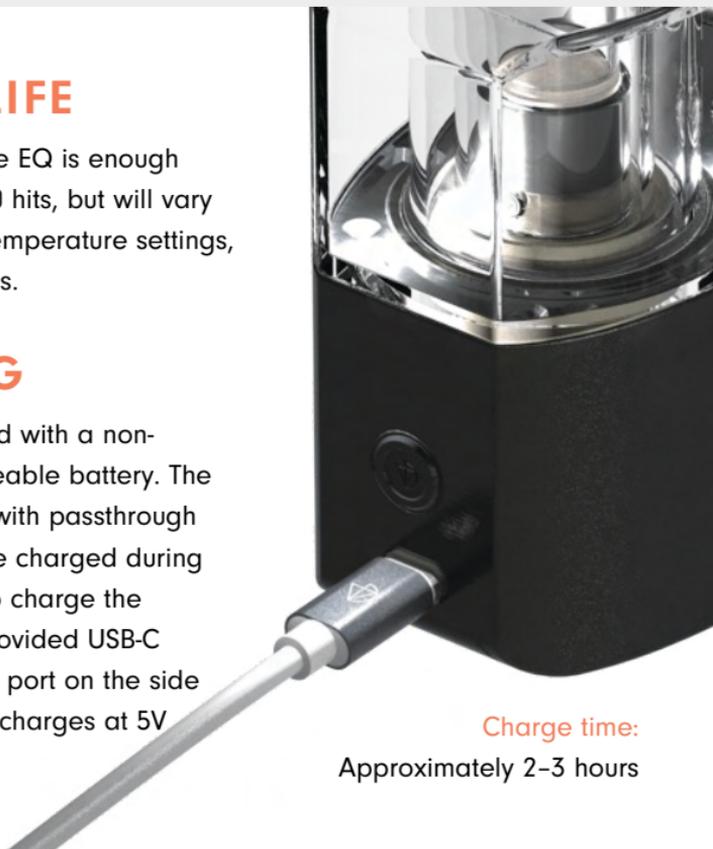

## BATTERY LIFE

The battery life of the EQ is enough for approximately 50 hits, but will vary based on runtime, temperature settings, and usage conditions.

## CHARGING

The EQ is engineered with a non-removable, rechargeable battery. The device is equipped with passthrough charging and can be charged during an active session. To charge the battery, insert the provided USB-C cable into the USB-C port on the side of the base. The EQ charges at 5V and up to 2A.

**Charge time:**  
Approximately 2-3 hours

## FACTORY RESET

While the device is turned off, press and hold the Command button for 10 seconds until the device vibrates.

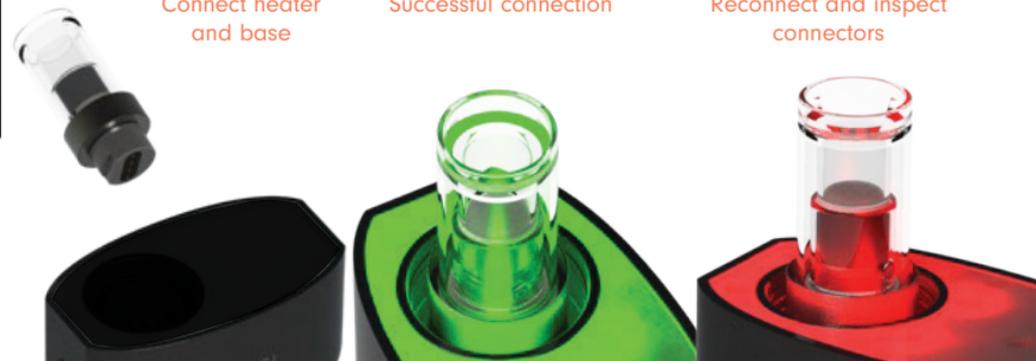

## HEATER CONNECTION

Connect the heater and the base. The LED lights underneath the heater will flash green upon a successful connection.

Connect heater  
and base

Successful connection

Reconnect and inspect  
connectors

## CLEANING AND MAINTENANCE

Regular maintenance is recommended to keep the EQ working optimal.

**Quartz Crucible:** While still warm after a session, clean the crucible with a cotton swab dipped in isopropyl alcohol. Once cool, wipe down the exterior. After a session, while the crucible is still warm, use a cotton swab dipped in isopropyl alcohol to clean the interior of the bowl. Once the bowl has cooled, use an isopropyl alcohol wipe to wipe down the vapor-touching surfaces around the bowl, including the exterior of the quartz crucible and the underside of the carb cap.

**Jacuzzi Bubbler:** To clean the inside of the bubbler, detach it from the base, remove any attachments, and discard any liquid inside the bubbler. Add isopropyl alcohol and swirl to dissolve reclaim. If hard water scale is present, add distilled vinegar and swirl to dissolve mineral buildup. Flush with clean water to remove any solvent residue.

**Zirconia Mouthpiece:** Clean the mouthpiece with a cotton swab dipped isopropyl alcohol or an isopropyl alcohol wipe.

**Check connection:** Check the electrical connection between the heater and the base and use an isopropyl alcohol wipe or a cotton swab dipped in isopropyl alcohol to clean the connection, if necessary.

## WARNING | DISCLAIMER

- Do not use the EQ if damaged, broken, or operating abnormally.
- Do not operate heavy machinery during or after use.
- This unit contains hot components. Use caution to avoid burns.
- Keep out of reach of children and pets.
- Do not submerge the heater or base in liquid. Avoid prolonged soaking of silicone parts in isopropyl alcohol.
- This product contains lithium batteries. Misuse can cause fire or explosion. Use caution when charging, discharging, storing, or handling. We are not responsible for damage or injury from misuse.
- Recycle or dispose of lithium-ion batteries per local regulations.
- Do not blow or exhale into the mouthpiece, as this may flood the base and damage internal components.
- DaVinci is not responsible for damage or injury caused by the use, misuse, or mishandling of the product or rechargeable batteries.
- EQ is not a medical device and is not regulated by the FDA. All medical diagnoses should be treated as instructed by a physician.
- This device is intended to be used for aromatherapy purposes in accordance with local law.

### Limited Warranty Information

DaVinci warrants the EQ heater and bowl against defects in materials and workmanship under normal use for a period of **six (6) months** from the date of retail purchase by the original end-user purchaser with proof of purchase.

DaVinci warrants the EQ base against defects in materials and workmanship under normal use for a period of **two (2) years** from the date of retail purchase by the original end-user purchaser with proof of purchase.

If a physical defect arises and a claim is received within the warranty period, at its option and to the extent permitted by law,

DaVinci Tech will (1) Repair the product defect, or (2) Exchange the product with a product that is new or is a functionally equivalent product.

Customer is responsible for bearing the cost of freight in order to receive warranty support. The limited warranty does not apply to normal performance degradation, wear and tear, or neglecting to adhere to cleaning and maintenance instructions.

Please contact the DaVinci support team for any needed customer service. For expedited service, register your product and sign up for DaVinci's VIP Customer Service Program.
